Introduction

The Second Edition of **Global Trade Facilitation Summit**, themed "**Trade Transformation and Technology**" which will take place on 15-16 March 2023 at Dubai Chambers, Dubai, United Arab Emirates. The Summit will be open for both **physical and virtual** attendees. The summit will be attended by 500-plus delegates from the UAE, MENA region, and around the globe.

This event, pioneered by ICC UAE will see leaders in trade facilitation join hands with focus and determination to make business work for everyone, every day, everywhere – the central value proposition of the ICC.

With the current challenges and ongoing uncertainties for global trade and finance, the Multilateral Development Banks (MDBs) provide exporters and importers with a secure channel to propel trade to what are often considered high-risk emerging markets. For many corporate customers and SMEs the MDBs through their support structures have kept supply chains open and have empowered companies to trade in what are often considered high-risk emerging markets.
